Apaya Ponyo Floor Lamp

Designed by Ayala Serfaty in
collaboration with textile artist
Irit Dulman

Jan 2018

Aqua Creations
Light that matters

The Apaya Collection exemplifies Ayala Serfaty's passionate research of textiles and light. Celebrating the inherent qualities of natural color and fibrous structure, wool becomes a sculptural carrier of light in a uniquely aesthetic way. The pieces in the Apaya Collection are all hand made using ecological and environmentally friendly materials. As it combines ancient wool felting techniques with modern lighting technology, the Apaya Collection safeguards heritage whilst re-inventing its future.

The felted wool is molded into a singular sleeve that is slipped over a transparent cylinder. This sleeve can be easily removed for dry cleaning or exchanged for another design.

Gladis Lounge Chair

Aqua Creations
Light that matters

Feb 2018

Following the success of the Gladis Lounge Chair which was originally introduced in 2009, Ayala Serfaty created the Gladis Collection.

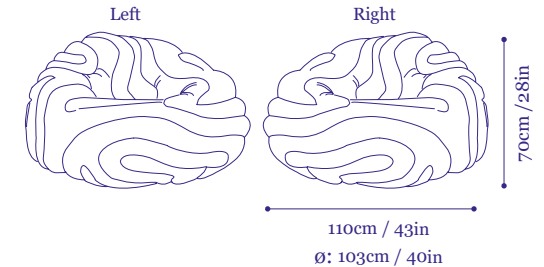

The first inspiration was a finger print. Ayala Serfaty took the idea of ones own topography further and developed a collection with a special, hand stitched upholstery technique, reminiscent of the fluid forms found in nature. The pre-shaped fabric cover is upholstered over ergonomically shaped polyurethane foam, designed for optimal comfort.

Anana Poof

Feb 2018

Aqua Creations
Light that matters

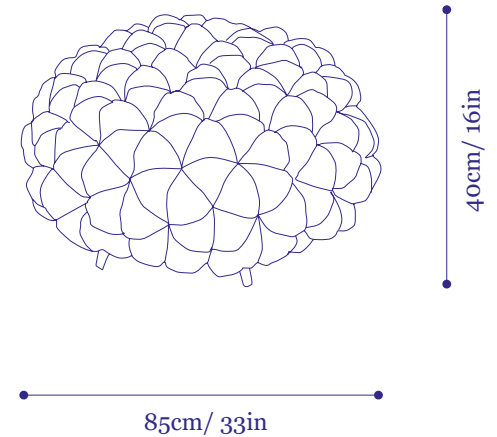

The Anana sculptural furniture pieces are created from fabric covered pods tailored to form three-dimensional surfaces. The pods are made by hand and sculpted over the piece. Hand crafting the pods produces organic geometry, at the same time both sturdy and sensually free. Legs are made of bronze-finished brass. Options: Custom sizing and shapes available. Anana can be upholstered in a single color or multiple compositions of eight different colors combined. Upholstery offered in micro fiber.

Satala Hammock

Jan 2018

Aqua Creations
Light that matters

The Satala is made of galvanized metal, painted in a bronze-like shade. Satala is a sculptural furniture piece, a hammock supported on one leg with a rubber coated metal ball at the end of the single foot. A mounting bracket is provided for mounting to a wall that can sustain its weight. The Satala has a removable down-filled cushion. The Satala is suitable for outdoor use if mounted in a location that has a roof or shelter.

Options available: Customer's own material, with no repeat: 6 meters, 7 yards. Optimo fill is used for outdoor locations.

For optimal maintenance vacuum the silk frequently (make sure the vacuum cleaner is at low suction and use a clean attachment) and avoid direct sunlight or smoke. To remove stains use upholstery foam cleaner (as these vary from country to country, testing the product on a hidden spot first is recommended).

In case of heavier dirt use a moist sponge and make sure to move it along the crushed line of the silk.

Please do not clean coated lamps with water. Note that any good quality silk fibers weaken when exposed to sun and natural dyes may fade. Hence, avoid direct sunlight on the silk lights.

Lucky Lamp Wall

Design by Albi Serfaty

Jan 2018

Aqua Creations
Light that matters

Lucky Lamp features a polymer-sprayed shade that uses laser cut technique and scrupulous handcraft. Unique to this lamp is a technology of 920 addressable RGB LEDs, where each light is controlled by a micro-computer to alter colour, motion and intensity. This technology enables Lucky Lamp to display five motion-lighting variants - Kaleidoscop, Fire, Water, Earth, Wind and an adaptable, ambient experience with Warm, Natural and Cold colour temperatures. The 920 LEDs enable both the color and motion options to be dimmable from 0.1 to 100% using a single control button.

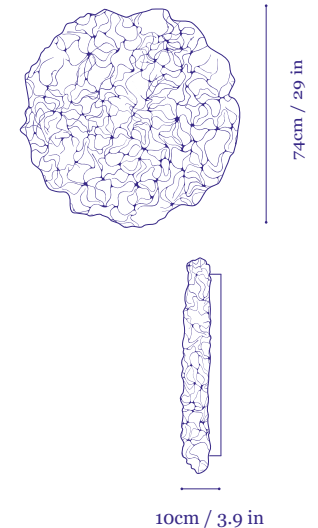

100-240 V
10120 Lumen

Mimosa One Meter Pendant

Aqua Creations
Light that matters

Jan 2018

The Mimosa collection was inspired by neurons and while the shape is organic it is contemporary and expresses subtleness and lightness. The shades are made from a laser cut, galvanized metal structure sprayed with clear polymer, resulting in a white membrane that perfectly distributes the light. The shades are sculpted by hand allowing some variations to occur from shade to shade. Mimosa is a highly customizable collection and may be adapted to fit spaces of any size.

*Standard suspension cable length is of 200 cm long.
Please specify length of cable if other than standard.

Mino 18

Floor Partition

Design by Albi with Benad Dar

Jan 2018

Aqua Creations
Light that matters

With its modernist shapes the new Mino lighting pieces are a perfect complement to Aqua's existing silk lighting collections. Mino adds streamlined, geometric shapes to the atelier's range of floor lamps. The pieces may also be looked at as light screens and the biggest shade can act as a room divider for larger spaces. For the first time Aqua has taken its iconic silk material and applied it to a newly designed lamp structure. Instead of sculpting the silk on hand bent metal, it is sculpted over a specially developed polycarbonate vacuum formed shell lit with energy saving CFL bulbs. Another special feature of this collection is the option of two silk colors in one shade. The shape together with the envelope silk draping, gives the shades an elegant yet humble expression.

220-240 V Model

With 2x T5 49W Linear Fluorescent bulbs

Five Molecules 96 Pendant lamp

Design by Albi Serfaty

May 2018

Aqua Creations
Light that matters

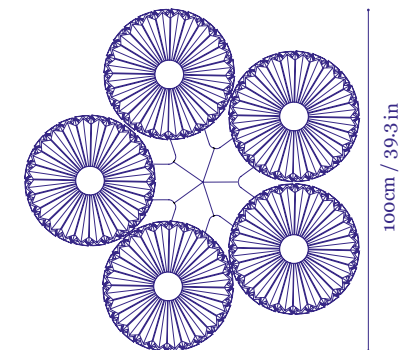

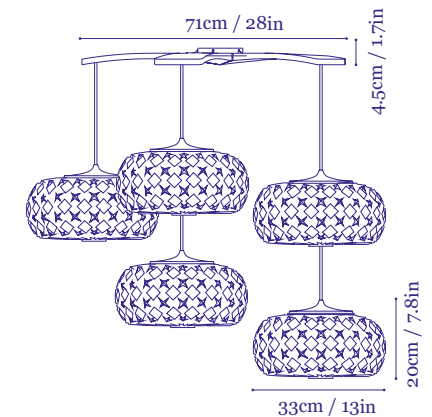

Molecules, is a comprehensive lighting collection based on the origami art of Ilan Garibi. The traditional Japanese art of paper folding begins with a blank sheet of paper which is folded and sculpted by hand into tessellations of individual molecules, with no cuts. The paper used for the origami lamp shades perfectly diffuses the light and easily resists the folding. A complement and contrast at the same time are the superior wood structures which derive their shape by digital wood carving.

In Aqua's tradition, natural materials and artisanal manufacturing interact with technology; the result is an elegant and luxurious lighting collection.

240- 110V UL listed

Molecules, is a comprehensive lighting collection based on the origami art of Ilan Garibi. The traditional Japanese art of paper folding begins with a blank sheet of paper which is folded and sculpted by hand into tessellations of individual molecules, with no cuts. The paper used for the origami lamp shades perfectly diffuses the light and easily resists the folding. A complement and contrast at the same time are the mahogany wood structures which derive their shape by digital wood carving (CNC). In Aqua's tradition, natural materials and artisanal manufacturing interact with technology; the result is an elegant and luxurious lighting collection.

Inside Out #1

Pendant

Design by Albi Serfaty

Jan 2018

Aqua Creations
Light that matters

“Inside Out” has a bold inverted design which celebrates craftsmanship. Instead of hiding its inner components and supporting structure, ‘Inside Out’ draws attention to its striking white painted steel frame and suspended polymer globe shade which pivots gently when activated by the natural airflow in the room.

Inside Out is the first in our new family of affordable lighting fixtures by Aqua Creations.

VAL Suspended

Design by Albi Serfaty

The VAL video art lamp is powered by 4096 addressable RGB LEDs mounted on a square-shaped aluminum frame. Each LED is controlled by a micro-computer to alter colour, motion and intensity. This technology enables VAL to display motion-lighting themes, while creating a rich ambient experience with Warm, Natural and Cold color temperatures. The color and motion options are dimmable from 0.1 to 100% and interface through a simple push control button.

Volume: 75x170x50 cm/ 30x67x20"

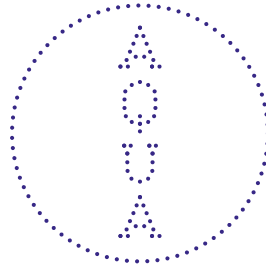

Weight: 25kg/ 55.1lbs

Dimensions:

Zooid Diamond Pendant

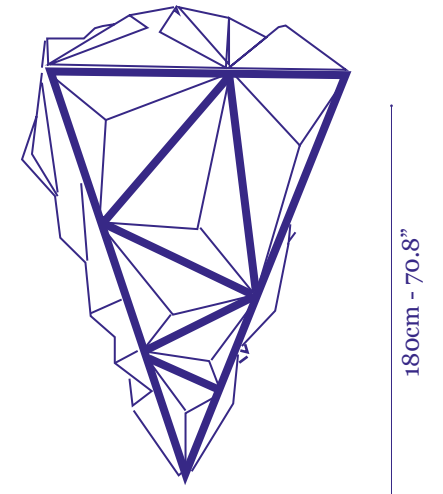

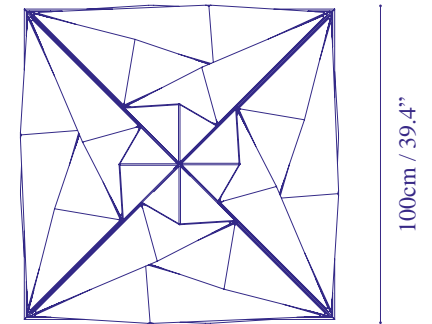

Design by Aqua Creations

The Zooid represents a new era for our atelier, and new collections to come established on Aqua Creations' aesthetic values. The light is perfectly distributed through the geometric shapes and creates a delightful interplay of soft fabric, stiff construction, light and shadows.
